hi there!

I'm Chris Chon.

Lead Product Designer · San Francisco

I design intuitive human experiences that live on screens, in real life, or somewhere in between.

Open to NY or SF roles

Thrive AI Health — AI health coaching — Oct 2025 – Present

Lead Product Designer

- Led design of the GLP-1 coaching experience, built around each dose cycle. In a four-week beta, **21 of 21** testers stayed on their medication and the coach found what eased symptoms in **31% → 67%** of episodes. Now launching to all members.
- Pitched, wrote the PRD and designed the Lilly Clinical Trials Navigator, an AI that prescreens patients by voice or text. Delivered a working demo in **three weeks**; Lilly named Thrive AI Health its top option.
- Led design for the Thrive AI Health app in ChatGPT, turning workout plans into guided workouts that adapt each week. **Approved by OpenAI**, now in build.
- Set the design culture for my team of three, from problem framing to UI/UX craft, and wrote the coaching specs and design system AI/ML builds from.

Sesame — Healthcare marketplace — Apr 2024 – Oct 2025

Lead Product Designer

- Moved Sesame from pay-per-visit care to membership programs: research and early IA maps, then a phased redesign of navigation, program and medication pages, intake and the homepage.
- Designed AI-assisted provider workflows (visit prep, prescribing, SOAP notes) and intake that powers Sesame's AI; co-founded the Tahini design system.

+42%	+64%	~3×
booking conversion from homepage redesign	avg. booking conversion through new intake	revenue after launch, and a first profitable year

lululemon Studio — Connected fitness, formerly MIRROR — Sep 2022 – Apr 2024

Senior Product Designer

- Led lululemon App Membership, adding **141,000+ members** in month one while support inquiries fell 52%.
- Used churn data to get device connectivity on the roadmap, then cut churn citing connectivity from **40% to 2%** over three releases, saving **~$800K/month**.
- Rebuilt the Studio app design system and handoff docs, raising developer productivity **64%**.

Apple — Retail Online Design — Sep 2020 – Sep 2022

Product Designer

- Owned journey, IA and UI for "Get Ready," the iPhone 13 pre-order pilot on apple.com and the Apple Store app in the US, UK and Japan.
- **73%** of US customers with a saved bag checked out at launch, driving **40%+** of US iPhone 13 pre-orders and **711K** checkouts in three countries.

Education

Dartmouth College
BA, Human-Centered Design & Government

Languages

English, Korean, Spanish, Italian

Honors

Apple Recognition Award

How I work

- **Understand** people through interviews, studies and UX psychology
- **Align** teams early around an IA map and PRD
- **Test** with users and stakeholders before shipping
- **3 design systems** led, one in each of my last three roles
